## Celebrating the Power of Communication

ASSEMBLY

DEAR PARENT,

Happy to connect with you again!

The student assembly this week was a vibrant display of creativity and talent, as **PYPIA students** took to the stage to showcase the **importance of effective communication**. This week's assembly was centered around the learner profile of "**Communicators**," and our students did an outstanding job of bringing this concept to life.

The highlight of the assembly was a captivating skit titled "**The Missing Moon**," which cleverly illustrated the significance of communication in our daily lives. Through their impressive acting skills, our students demonstrated how communication can help resolve conflicts, build relationships, and foster understanding.

In addition to the skit, the students also **delivered a high-energy clap song** performance that conveyed a valuable message about the diversity of communication styles. The performance emphasized that **both verbal and non-verbal communication** are essential, and that everyone has their unique way of expressing themselves. This message was beautifully conveyed through the students' synchronized clapping and energetic movements.

We appreciate the little ones and their **teachers Ms. Nivedha, Ms. Vaishnavi, Mr. Georgie and Mr. Sanjay** for the wonderful assembly.

# PYP 5 Exhibition Visit

## A VALUABLE LEARNING EXPERIENCE

PYP 5 learners had a valuable opportunity to visit the **PYP Exhibition at Akshar Arbol International School, Injambakkam**. The exhibition showcased student-led inquiry projects covering various topics, research methodologies, and creative presentations.

As they explored the exhibition, students engaged in insightful discussions with presenters, gaining a deeper understanding of the inquiry process, challenges faced, and key takeaways. They **observed first-hand how research, critical thinking, and collaboration contribute to meaningful projects, inspiring them to reflect on their learning journey.**

The interactive displays, models, and visual storytelling provided new perspectives on **effective information presentation**. This experience not only enhanced their appreciation for the inquiry cycle but also encouraged them to think critically, ask thought-provoking questions, and apply these insights to their academic explorations.

The visit was truly inspiring, sparking curiosity and motivation as students look forward to their own PYP Exhibition journey at HUS.

# MYP/DP Sports Day

The 2024-25 MYP/DP Sports Day which was completed last Friday was full of fun and excitement. The event featured a **March Past, a welcome dance, and various athletic competitions.** The day concluded with a celebration of achievements, with awards presented to the top performers and the **overall championship.** The Team Sports Award ceremony will be held next week during a special assembly.

# Heart Run

## A SUCCESSFUL MARATHON FOR A CAUSE

The HUS **Heart Run**, an annual marathon hosted by HUS and organized by the **CAS team of DPI**, was a remarkable success this year. Held on the morning of March 8th, 2025, from 6:00 AM to 8:00 AM, the **event attracted 180 enthusiastic participants** who registered to take part in the cause.

Participants had the option to either run or walk along one of three track options: 3 km, 6 km, or 12 km. The course began at the HUS basketball court, stretched to the House of Hiranandani entrance, and looped back, offering a scenic and invigorating route.

**The event was not just about fitness but also about charity.** The funds raised from the marathon will **go towards the treatment of a deserving heart patient**, making this run a meaningful contribution to the community.

The Heart Run 2025 once again demonstrated the power of collective effort in making a positive impact, blending physical activity with a heartfelt cause.
